

**ANT
INDUSTRIAL
WORKS, INC.**

ANT Industrial Works, Inc. is a mechanical contracting company that provides quality products to its clients. One of the specializations of the company is the production of duct works and accessories.

ANT follows the strict rules of the Sheet Metal and Air Conditioning Contractors' National Association, Inc. (SMACNA) and

uses only approved sheet metal that conforms to the lock forming qualities needed.

ANT's people are trained to apply these standards with utmost precision. The company's products pass through rigid quality assurance inspection and thorough quality testing.

PROFESSIONAL SERVICES

FACILITIES MANAGEMENT

Managing a mechanical facility is taxing. Operation, maintenance, repair, and housekeeping are flawlessly coordinated with tenants, vendors, technicians, and management to ensure maximum availability of the system. Timely reports are submitted to give you anything and everything you need to know about your system requirements.

CONSULTANCY

ANT's mechanical engineers conduct services from the initial survey to the analyzation of plans and specifications to suit to our client's needs. We also work with the owners and other contractors to come up with seamless turnkey solutions to your HVAC requirements.

Not to us, O Lord, not to us, but to
Your Name give glory,
for the sake of Your steadfast love and
Your faithfulness!
- Psalm 115:1
